GAD-SBQ

Name: _____ **Date:** _____

The following statements describe safety behaviours reported by people with generalized anxiety disorder. Please indicate to what extent each of these behaviours has been typical of you **during the last month** by circling the number (1 to 5) that describes you best. There are no good or bad answers.

	Not at all typical of me	A little typical of me	Moderately typical of me	Mostly typical of me	Extremely typical of me
1. I markedly avoid situations in which a negative outcome could occur. *Ex: Avoiding eating at a new restaurant*	1	2	3	4	5
2. I repeatedly re-do or make changes to tasks I have already finished. *Ex: Returning to a project you've already finished and making changes*	1	2	3	4	5
3. I search for *a lot* of information to make me feel more sure. *Ex: Checking traffic reports to determine if there has been an accident on your spouse's route home from work*	1	2	3	4	5
4. I avoid fully committing myself to jobs, projects, or relationships because I'm unsure of how they will turn out. *Ex: Refusing to take on a more challenging project at work*	1	2	3	4	5
5. I repeatedly seek reassurance due to my worries. *Ex: Asking spouse for reassurance regarding my worries about our relationship.*	1	2	3	4	5

	Not at all typical of me	A little typical of me	Moderately typical of me	Mostly typical of me	Extremely typical of me
6. I repeatedly check to make sure I have done a project or task correctly. *Ex: Checking an email repeatedly to ensure you attached the correct document*	1	2	3	4	5
7. I markedly procrastinate on decision-making or my behaviour due to my worries. *Ex: Putting off making a phone call due to my worries.*	1	2	3	4	5
8. I repeatedly avoid situations in which I will feel unsure. *Ex: Avoiding parties at which strangers will be present*	1	2	3	4	5
9. I repeatedly seek out particular people, items, or routines in an attempt to feel more sure. *Ex: Only attending parties if a specific friend will attend with you*	1	2	3	4	5
10. I spend marked effort and time preparing for situations in which a negative outcome might occur *Ex: Spending hours researching symptoms online before a doctor's appointment*	1	2	3	4	5
